Vaccine revolution in one State of the union

“South Dakota bill introduced to prohibit schools from requiring immunizations,” (Feb 5, 2020):

“The bill would make it a Class 1 misdemeanor for ‘any educational institution, medical provider, or person to compel another to submit to immunization,’ according to the bill text.”

September 14, 2017 [Devastating Flu Vaccine-Miscarriage Study Sparks Ridiculous Spin by J.B. Handley, Jr.](#)

The mainstream media is doing their best to minimize a devastating study showing a high correlation (7.7-fold) between flu vaccines and miscarriages.

August 29, 2017 [Fast-Tracking Mandatory Vaccination While Government and Media Muzzle Scientists](#)

Turning their backs on the human rights principle of voluntary informed consent memorialized in the [Nuremberg Code](#) after World War II, health authorities in [France](#) and [Italy](#) are fast-tracking involuntary vaccine mandates for school-age children. In Italy, millions of Italians have been [demonstrating](#) since June, protesting the infringements to parental rights.

Vaccines are big business, and the new vaccine mandate ensures the continued flow of profits to the \$32 billion industry despite STEADY EROSION OF PUBLIC CONFIDENCE IN VACCINE SAFETY.

[Texas lawmaker claims your child "belongs to the state" and can be forcibly vaccinated.](#)

[FREE RESOURCES- CLICK HERE](#)

[WHO, CDC, GACVS Mislead On HPV Vaccine Safety, Alleges MD In Open Letter](#)

Those whose names appear in my complaint and any who blindly dismiss valid safety concerns in order to continue promoting HPV vaccinations should be held accountable for their actions. There is no excuse for intentionally ignoring scientific evidence. There is no excuse for misleading global vaccination policy makers at the expense of public health interests. There is no excuse for such a blatant violation of the public trust." ~ Dr. Lee

[WHY YOU SHOULD NOT SIGN the Refusal to Vaccinate form!](#)

"Vaccine induced adverse reactions including autism, diabetes, cancer, allergies, and various neurological disorders continue to mount and more so where vaccines are used most. For all these reasons I refer to vaccines as "cluster bombs" which when injected, explode in all parts of one's body and knock out some of the most critical organs and tissues. Therefore, my opinion on this subject is that no currently used vaccine does any good to anyone's health and every vaccine is potentially dangerous to everyone's health."

Dr. Shiv Chopra, B.V.Sc. & A.H., M.Sc., Ph.D

"Personally, I can attest to the fact that as a child, I did get all of the vaccines available. I also came down with Measles, Mumps, and Chicken Pox despite going thru that regimen." Dr. Raymond Obomsawin, PhD

"President Ford was going to vaccinate the entire population against Swine Flu... now I spoke out against it... and I specifically said that many people would drop dead after receiving the vaccines. Now there was someone in New York watching the program who didn't like a gentleman called "Gambino"... a mafia boss. So he got someone to persuade Gambino to have his flu shot and Gambino promptly dropped dead." Dr. Archie Kalokerinos, M.D.

"Why are so many people choosing to leave doctors? Quite likely because doctors no longer have the trust of the community. A doctor who's prepared to lie to achieve a good result from vaccination, that is, get more children vaccinated, has got to be prepared that the people they've lied to, may choose not to go back to them." Dr Mark Donohoe

<https://youtu.be/cqsT5Eolk8U?t=1h7m29s>

"People don't like to accept responsibility for their own health so it's easy to allow the doctors to do something to them to keep their health. Secondly, immunization information comes mainly from the drug companies and from the researchers that they pay. So all the information comes from the source. There are very few real independent researchers. And thirdly, vaccines are a billion dollar industry and there are at least a billion good reasons there why it's continued." Peter Baratosy, M.B., B.S., Ph.D.

<https://youtu.be/cqsT5Eolk8U?t=1h6m44s>

"...Having Measles not only gives lifelong specific immunity to measles but also non-specific immunity to certain tumors, immunoreactive diseases, degenerative diseases of bone and cartilage, and sebaceous skin diseases. Why would anybody want to rob children of these benefits? And on top of that measles also represents a developmental milestone." 102.00 Dr Viera Scheibner

"There was a big epidemic of Small Pox in the Philippines and this was a very important epidemic in many ways because statistics were kept for the first time. And it was clearly demonstrated that the only people who got Small Pox twice were the vaccinated and that there were far more cases of Small Pox among the vaccinated than amongst the non-vaccinated. And these statistics are available if people want to see 'em. Now I think these are the most glaring examples of how people are being misled." Dr. Archie Kalokerinos, M.D.

"The most interesting thing about the situation in the United States is that the Amish didn't report a single case of Measles between 1970 and 1988. For 18 years, the unvaccinated Amish did not report a single case of Measles." Dr. Viera Scheibner, PhD Doctor explains that vaccines did not save us...

Quote cued here: <https://youtu.be/cqsT5Eolk8U?t=10m49s>

"Scarlet Fever which is an infectious disease caused by streptococcal bacteria was in existence in the same sort of levels at the same time as whooping cough, measles, polio... and we do not vaccinate against Scarlet Fever. We never have vaccinated against Scarlet Fever. And interestingly, the incidence of Scarlet Fever has dropped off, paralleling the drop in whooping cough and polio and so on..."

Pro Vax Doctor Becomes Anti Vax ...

Quote cued up here: <https://youtu.be/cqsT5Eolk8U?t=3m50s>

"... I used to vaccinate my own children and one of them, my oldest daughter was quite severely damaged and that led me to question whether or not what I'd been told by doctors was really accurate because I was told time and again to keep vaccinating her despite the reactions that she was having. Eventually the penny dropped and I realized that there was a direct cause between the symptoms that she was experiencing, going

from a completely healthy young child, to someone who wasn't and vaccines because the symptoms were intensifying after each vaccine."

Dr. Isaac Golden, Ph.D(MA), D.Hom., N.D., B.Ec(Hon)

"...then when something happened to their children, they were told that it's just a coincidence. And it is heartbreaking because I see many of these kids who were developmentally normal, who were doing well, who were speaking, who's voices were lost, who's eye contacts were lost, who went into seizures, who developed asthma, who developed allergies, and they had nowhere to go because their doctors told them they don't know what they're talking about. And these kids are real." Dr Larry Palevsky, MD

"They have shown unequivocally, in all age groups, that Flu Shots do not work. And they've looked at all of the research that's been published and even translated 17 articles from Russian to be complete and they found that, under no circumstances does the Flu Shot keep you from getting sick. They're no better than the placebo but yet we spend Medicare dollars, Medicaid dollars, Insurance dollars... I mean endlessly. I mean the Government is the #1 purveyor of Flu Vaccines in the world. And yet we have enormous amounts of research that says it doesn't work. Talk about fraud. Why isn't the FTC going after that? Dr Sherri Tenpenny D.O.

"Vaccines are the backbone of the entire Pharmaceutical Industry... If they can make these children sick from a very early age, they become customers for life. The money isn't really to be made in the vaccine industry. The money is made by Big Pharma with all of the drugs that given to treat and address all of the illnesses that are subsequent to the side effects of the vaccines." Dr Sherri Tenpenny D.O.

<http://drtenpenny.com/dr-sherri-tenpenny/>

"When you give an injection like a vaccine, it explodes inside like a cluster bomb. All these diseases (diabetes, cancer, thyroid issues, etc.) use to be rare. Autism use to be 1 in 10,000. Now it's 1 in 50. Now, where is it all coming from? Vaccines are doing it. Dr Shiv Chopra

"When you hear this thing about 36,000 people dying of pneumonia? And so... they wanted to see if the vaccine prevented pneumonia... they found it had no effect whatsoever... gave no protection. And it's interesting... the article ended "You still should get your flu vaccine." Dr Russell Blaylock, MD

"This shows the outbreaks of Measles virus and the number of kids that were fully vaccinated in these various outbreaks. Look, in 1985, 99% of the children who got measles, were vaccinated. Here in 1986, 96% were vaccinated. So, most of the kids

that are getting the measles that you hear about in the news were fully vaccinated or at least partially vaccinated." Dr. Russell Blaylock, MD

"Tetanus vaccine is probably one of the most ridiculous vaccines ever. Your chances of getting Tetanus are about the same as walking outta here and getting hit by a meteor. If you get a cut or puncture wound and you put peroxide on it, your chances of getting tetanus are zero because tetanus organism is anaerobic. It can not live in oxygen. Tetanus comes from the bowels of animals. As long as you don't have a sheep or a cow in your house, I don't think you're in any danger." Dr Russell Blaylock, MD

"Up to 90% of the total decline in the death rate of children between 1860-1965 because of whooping cough, scarlet fever, diphtheria, and measles occurred before the introduction of immunizations and antibiotics," stated Dr. Archie Kalokerinos.

"When you look thru the epidemics that occurred or the outbreaks that have occurred in the United States, in almost every case, 90% of the kids have been vaccinated. And so, it's not that the kids that are unvaccinated have been getting the problem. If you look thru the populations that don't vaccinate their kids like the Amish, there's no epidemics of death in the Amish communities; there's no epidemic of polio in the Amish communities; there's no epidemic of autism in the Amish communities."

"I never had a vaccine for any of these things and I caught every childhood disease known. I had measles, mumps, rubella, chicken pox... I had all of 'em. I said, everybody had 'em. I said, I don't remember one child in any of my classes that ever had a major problem... never died. I said, the streets were not littered with bodies, the way they would make you think." Dr Blaylock MD

"You have heard there's a tremendous increase in asthma; a tremendous increase in the Type 1 diabetes in children and in Rheumatoid Arthritis in children. These are all vaccine related disorders."

Dr Russell Blaylock

"Studies are increasingly pointing to the conclusion that vaccines represent a dangerous assault to the immune system leading to autoimmune diseases like Multiple

Sclerosis, Lupus, Juvenile Onset Diabetes, Fibromyalgia, and Cystic Fibrosis as well as previously rare disorders like brain cancer, SIDS, childhood leukemia, autism and asthma."

Dr. Zoltan Rona, MD

'Natural Alternatives to Vaccination'

"Brian Deer is a classic sociopath... it is a fact... And if you think [Brian Deer](#) acted out of altruism for parents... this is what he wrote about parents of autistic children on the internet: 'The festering nastiness, the creeping repetitiveness, the weaselly, deceitful obsessiveness, all signal pathology to me and they wonder why their children have problems with their brains.' This is the man in whom the medical and scientific communities invested their trust and they're welcome to him."

"And when asked at a public meeting in Louisiana, one of the architects of the vaccine policy in this country, Neal Halsey from Johns Hopkins, he was asked about why would you give this vaccine (Hepatitis B) to children on the first day of life when it's for these high risk groups. His answer was "Because we can." That's just supreme arrogance and the reason was... the reason now for the CDC is that if you get children on to the vaccine schedule early, it improves compliance for later vaccines. That's not a scientific rationale for giving Hepatitis B vaccine on day one of life. It's an utterly bizarre contrived notion This is an exercise in profiteering and public health control."

Dr Andrew Wakefield

"Just to give you an example of the people you're dealing with...In the Australian court when Merck were brought forward when they were being sued for knowing that their drug was harmful and yet concealing the data from the regulatory agencies and others. There was an exchange of internal emails brought forward in court as evidence on how Merck would deal with doctors who dissented from the safety of their product and doctors who criticized it and they talked about how they should isolate and discredit the doctors. And the final email that was read out said we may have to seek them out and destroy them where they live. So this isn't conspiracy theory. This is corporate policy." Dr Andrew Wakefield

“The greatest lie ever told is that vaccines are safe and effective.” – Leonard G. Horowitz

“Vaccines are highly dangerous, have never been adequately studied or proven to be effective, and have a poor risk/reward ratio.” – Dr. Allen Greenberg, MD

“In my medical career I’ve treated vaccinated and unvaccinated children and the unvaccinated children are far healthier than the vaccinated ones.” – Dr. Philip Incao, MD

“I found the whole vaccine business was indeed a gigantic hoax. Most doctors are convinced that they are useful, but if you look at the proper statistics and study the instances of these diseases you will realize that this is not so.” – Dr. Archivides Kalokerinos, MD

“The vaccinations are not working and they are dangerous. We should be working with nature.” – Dr. Lendon Smith, MD

“There is no scientific evidence that vaccinations are of any benefit, but it is clear that they cause a great deal of harm.” – Dr. Gerhard Buchwald, MD

“All vaccines are and have been causing ischemic (impaired blood flow) damages - to all - creating a plethora of chronic illnesses, disease, and in some instances, death. The injury from vaccination is additive; each vaccination further injures.” – Dr. Andrew Moulden MD, PhD

“When you impair the brain blood flow by vaccination you can impair the respiration control center which can result in death. We call it SIDS.” – Dr. Andrew Moulden MD, PhD

“Vaccination is the most dangerous medical practice in the history of classical medicine.” – Dr. Sladjana Velkov (Macedonia)

[With vaccination] “what in reality is prevented is not the disease but the ability of our cellular immune system to manifest, to respond to and to overcome the disease! There is no system of the human being, from mind to muscles to immune system, which gets stronger through avoiding challenges, but only through overcoming challenges.” – Dr. Philip Incao, MD

"I have lectured all over the world... I have always had a special interest in newspapers. All of them have one thing in common, there is always some reference made to some epidemic in some part of the world. For instance, two years ago, one paper referred to a polio epidemic in Holland. For the past three years, our newspapers have commented on the diphtheria epidemic in Russia. By these means, the population is constantly threatened with epidemics, they have been made to fear them, and the reports always conclude: "Go and get vaccinated." - Dr. Gerhard Buchwald, MD

"To create fear among parents to strengthen their motivation to vaccinate is an important part of the publicity used to promote vaccinations. A whole branch of research is examining the question: What level of fear needs to be created to appear as convincing as possible?" – Dr. Gerhard Buchwald, MD

"In 1866, an English physician described a very strange illness. Children looked like Mongols. His name was Down. That's why we call it Down's Syndrome today... I should add that this syndrome is a result of the vaccinations carried throughout England by Jenner in 1796... It (Down's Syndrome) is probably the first congenital disease caused by vaccinations. In Germany, the first child with evidence of Down's Syndrome was reported in 1922. Today, one in every 700 newborns has it." - Dr. Gerhard Buchwald, MD

"There is insufficient evidence to support routine vaccination of healthy persons of any age." – Dr. Paul Frame, MD, Journal of Family Practice

"Only after realizing that routine immunizations were dangerous did I achieve a substantial drop in infant death rates." – Dr. Archivides Kalokerinos, MD

"I'll talk about vaccines. Number one, vaccines make people sick. They don't work. They don't protect. The use of vaccines is totally wrong! It's perfect nonsense based on fear. They are dangerous. One child out of five has overwhelming disabilities from vaccines – neurological problems, seizures. I've got a whole list. There are plenty of books on this subject. Doctors don't even read about this." - Dr. Guylaine Lanctot, MD

"During those 30 years I have run against so many histories of little children who had never seen a sick day until they were vaccinated and who, in the several years that

have followed, have never seen a well day since. I couldn't put my finger on the disease they have. They just weren't strong. Their resistance was gone. They were perfectly well before they were vaccinated. They have never been well since." – Dr. William Howard Hay, MD

"Nobody needs to be confused but everybody better be darn well frightened about taking any vaccine, under any circumstance, for any reason, at any time in their life." – Dr. Daniel H. Duffy Sr., DC (retired air force officer – 21 yrs., family doctor – 28 yrs., vaccination researcher – 49 yrs.)

"I vaccinated both my children with the MMR jab, but this was before I started my research into the problems associated with it. Knowing what I know now, I would not vaccinate my children and run the risk of them getting diabetes, asthma, eczema, becoming more susceptible to meningitis and ending up chronically disabled." – Dr. Jayne Donegan, GP, Homeopath

"Had my mother and father known that the poliovirus vaccines of the 1950s were heavily contaminated with more than 26 monkey viruses, including the cancer virus SV40, I can say with certainty that they would not have allowed their children and themselves to take those vaccines. Both of my parents might not have developed cancers suspected of being vaccine-related, and might even be alive today." – Dr. Howard B. Urnovitz, PhD, CEO, CSO and co-founder of Chronic Biomedical

"Childhood vaccines are giving us a world of chronic illness: autism, developmental disorders, Asperger's Syndrome, brain tumors, leukemia, cancers, information processing disorders, impulsive violence, allergies, asthma, diabetes, Crohn's disease, intestinal disorders, are just some of the vaccine associated disorders." – Dr. Tedd Koren, DC

"I am no longer trying to dig up evidence to prove vaccines cause autism. There is already abundant evidence. This debate is not scientific but is political." Dr. David Ayoub, MD

"There are at least seven laboratory studies, clinical studies, of blood, cerebral, spinal fluid, biopsies of autistic children which show huge differences between autistic children and normal children in terms of the presence of things like measles vaccine virus in their intestinal tract, for example, or their neurons. So, there's one line of evidence. Another, of course, is that we have data from thousands of parents who

testify, often with videotapes and photographs and eyewitness reports, that their kid was perfectly normal. And they can demonstrate it, as I say, very conclusively with tapes, until after the vaccine. The kid retreated into autism. There's just converging evidence from many, many directions." – Dr. Bernard Rimland, PhD, Founder and Former Director of the Autism Research Institute

"When the link between the use of unsafe, mercury-laden vaccine and autism, ADHD, asthma, allergies and diabetes becomes undeniable, mainstream medicine will be sporting a huge, self-inflicted and well-deserved black eye. Then will come the billion-dollar awards, by enraged juries, to the children and their families." – Dr. Bernard Rimland, PhD, founder and former director of the Autism Research Institute

"The greatest threat to our health today is the medical community, and one of their most dangerous tools is vaccination - particularly the horrific procedure of injecting foreign protein into newborn infants!" - Dr. Daniel H. Duffy, DC

The greatest threat of childhood diseases lies in the dangerous and ineffectual efforts made to prevent them through mass immunization... There is no convincing scientific evidence that mass inoculations can be credited with eliminating any childhood disease." – Dr. Robert Mendelsohn, MD

"We are taught by the authorities that vaccines protect us against eventual aggressive viruses and microbes, and, therefore, prevent contagious illnesses and epidemics. This lie has been perpetuated for 150 years despite the ineffectiveness of vaccines in protecting against illnesses." – Dr. Guylaine Lanctot, MD

"My suspicion, which is shared by others in my profession, is that the nearly 10,000 SIDS deaths that occur in the United States each year are related to one or more of the vaccines that are routinely given children. The pertussis vaccine is the most likely villain, but it could also be one or more of the others." – Dr. Robert Mendelsohn, MD

"Many here voice a silent view that the Salk and Sabin Polio Vaccines, being made from monkey kidney tissue, have been directly responsible for the major increase in leukaemia in this country." - Dr. F. Klenner, MD

"As a clinician, my current belief which guides my practice with these children is that any child given the Hep B vaccination at birth and subsequent boosters along with DPT has received unacceptable levels of neurotoxin in the form of the ethyl mercury in the thimerosal preservative used in the vaccine. In any child with a genetic immune susceptibility (probably about one in six) this sets off a series of events that injure the brain-gut-immune system. By the time they are ready to receive the MMR vaccination, their immune system is so impaired in a great number of these children that the triple vaccine cannot be handled by the now dysfunctional immune system and they begin their obvious descent into the autistic spectrum disorder." - Dr. Jaquelyn McCandless, MD

"In 1976 I was working in the Gulf Country around Cape York, in an aboriginal community of about 300 people. The Health Department sent around a team and vaccinated about 100 of them against flu. Six were dead within 24 hours or so and they weren't all old people, one man being in his early twenties. They threw the bodies in trucks to take to the coast where autopsies were done. It appeared they had died from heart attacks." - Dr. Archie Kalokerinos, MD

"As a retired physician, I can honestly say that unless you are in a serious accident, your best chance of living to a ripe old age is to avoid doctors and hospitals and learn nutrition, herbal medicine and other forms of natural medicine unless you are fortunate enough to have a naturopathic physician available. Almost all drugs are toxic and are designed only to treat symptoms and not to cure anyone." - Dr. Alan Greenberg, MD

"According to the records of the Metropolitan Life Insurance Company, from 1911 to 1935 the four leading causes of childhood deaths from infectious diseases in the U.S.A. were diptheria, pertussis, scarlet fever, and measles. However, by 1945 the combined death rates from these causes had declined by 95% before the implementation of mass vaccine programs." - Dr. Harold Buttram, MD

"I would consider the risks associated with measles vaccination unacceptable even if there were convincing evidence that the vaccine works. There isn't. In 1900 there were 13.3 measles deaths per 100,000 population. By 1955, before the first measles shot, the death rate had declined 97.7 percent to only 0.03 deaths per 100,000." – Dr. Mendelsohn, MD

"Up to 90% of the total decline in the death rate of children between 1860 and 1965, because of whooping cough, scarlet fever, diptheria, and measles, occurred before the introduction of immunizations and antibiotics." - Dr Archie Kalokerinos, MD

"What the vaccinators don't tell you is that communicable diseases have been declining at a steady rate for 150 years and that there is no relationship between the various diseases and the onset of immunization. Without exception, the vaccine program for each of the childhood diseases was inaugurated after that particular diseases had begun to disappear. Contrary to what you have been told, this includes polio. What the vaccines have done is cause the various childhood diseases to become adulthood diseases - with far more serious implications, mumps in men and rubella in women for example." - Dr. William Douglass, MD

"For thirty years kids died from smallpox vaccinations even though no longer threatened by the disease." - Dr. Robert Mendelsohn, MD

"I am and have been for years a confirmed anti-vaccinationist. Anti-vaccination has no backing from the orthodox medical opinion. A medical man who expresses himself against vaccination loses caste. Tremendous pecuniary interests too have grown around vaccination." - Mahatma Gandhi

"I have no faith in vaccination; I look upon it with the greatest possible disgust, and firmly believe that it is often the medium of conveying many filthy and loathsome diseases from one child to another, and no protection whatever against smallpox. Indeed, I consider we are now living in the Jennerian epoch for the slaughter of innocents, and the unthinking portion of the adult population." – Dr. W.J. Collins, MD, BS, BSc, MRCS

"What people don't know about vaccines --what most doctors don't know-- but well demonstrated in medical literature, is that vaccines shift your immune system to an immune suppression type of state called the "TH2 shift." That's what most vaccines do. They shift your immune system to a weaker, antibody type immune system... If you're injecting people with so many vaccines that your keeping them in this

constant state --that now your switching everyone to this TH2 immune suppression-- then everyone becomes more susceptible [to infectious diseases]... and no one is talking about that. Now, a lot of scientists know that, but they are afraid to speak out because their careers would be ruined." - Dr. Russell Blaylock, MD

"Using kids as guinea pigs in potentially harmful vaccine experiments is every parents' worst nightmare. This actually happened in 1989-1991 when Kaiser Permanente of Southern California and the Centers for Disease Control (CDC) jointly conducted a measles vaccine experiment. Without proper parental disclosure, the Yugoslavian-made "high titre" Edmonston-Zagreb measles vaccine was tested on 1,500 poor, primarily black and Latino, inner city children in Los Angeles. Highly recommended by the World Health Organization (WHO), the high-potency experimental vaccine was previously injected into infants in Mexico, Haiti, and Africa. It was discontinued in these countries when it was discovered that the children were dying in large numbers." - Dr. Alan Cantrell MD

"There is no evidence that any influenza vaccine thus far developed is effective in preventing or mitigating any attack of influenza. The producers of these vaccines know that they are worthless, but they go on selling them anyway." – Dr. J. Anthony Morris, Former Chief Vaccine Control Officer, US FDA

"My own personal view is that vaccines are unsafe and worthless. I will not allow myself to be vaccinated again. Vaccines may be profitable but in my view, they are neither safe nor effective." – Dr. Vernon Coleman, MB, ChB, DSc (Hon)

"I once believed in Jenner; I once believed in Pasteur. I believed in vaccination. I believed in vivisection. But I changed my views as the result of hard thinking." – Dr. Walter Hadwen, MD, LSA, MRCS, LRCP, MB

"Cancer was practically unknown until compulsory vaccination with cowpox vaccine began to be introduced. I have had to deal with at least two hundred cases of cancer, and I never saw a case of cancer in an unvaccinated person." – Dr. W. B. Clarke

“No long-term safety testing for the influenza vaccine has ever been done. They are experimenting on our lives and our children. Influenza vaccine is an experimental vaccine. ” – Dr. Mark Geier, MD, PhD

“There is a great deal of evidence to prove that immunization of children does more harm than good.” – Dr. J. Anthony Morris, Former Chief Vaccine Control Officer, US FDA

“The only safe vaccine is one that is never used.” – Dr. James A. Shannon, MD, Former Director, National Institutes of Health (1955-1968)

“Belief in immunization is a form of delusional insanity.” – Dr Herbert Shelton, MD

“I don’t think measles poses any risk to a healthy child.” – Dr Jay Gordon, MD

“I sincerely believe that vaccines cause more harm to the health of the individual than the “protection” and “benefit” they are proclaimed to provide. Staying healthy without vaccines is not only possible, but being vaccine-free is the only way to maintain a lifetime of real health.” – Dr. Sherri Tenpenny, DO

“Nothing but the natural ignorance of the public, countenanced by the inoculated erroneousness of the ordinary general medical practitioners, makes such a barbarism as vaccination possible. Recent developments have shown that an inoculation made in the usual general practitioner's light-hearted way, without previous highly skilled examination of the state of the patient's blood, is just as likely to be a simple manslaughter as a cure or preventive. But vaccination is nothing short of attempted murder. A skilled bacteriologist would just as soon think of cutting his child's arm and rubbing the contents of the dustpan into the wound, as vaccinating.” – George Bernard Shaw

“The more it (vaccination) is supported by public authorities, the more will its dangers and

disadvantages be concealed or denied.” – M. Beddow Bayly

“One vaccine decreases cell-mediated immunity by 50%, two vaccines by 70%... all triple vaccines (MMR, DTaP) markedly impair cell-mediated immunity, which predisposes to recurrent viral infections, especially otitis media, as well as yeast and fungi infections.” – Dr H.H. Fudenberg, Immunologist
