

## SMART-PHONE CB RADIO

### "CHANNEL 99"

This is an experimental system to try and duplicate old CB Radio via a SMARTPHONE application called [ZELLO](http://www.zello.com). If you are on the "road again" just put up a printed-off paper sign in your cab window, or tell verbally, another driver to go to **[tinyurl.com/cbradio99](http://tinyurl.com/cbradio99)** on his/her SmartPhone and just follow the instructions there.

*"Hey meet me on channel 99..."*

First you'll need to download the [ZELLO](http://www.zello.com) application for your Android smart phone or PC.

[Click here to do that](http://www.zello.com) (<http://www.zello.com>).

When you do that you will need to setup your username (*use your CB handle*) and password there. After that go to the Zello App and select  
TOOLS>ADD CHANNEL...

(actual channel names listed below in **bold**):

Only choose regions you'll know you'll be driving through soon.

### **CB Radio (Calling Channel) [Ch99]**

*A CB Radio simulator for truckers USA nationwide. Sit on this channel and wait for calls or call out from here and then move to another channel.*

### **CB Radio [Ch1] Northeast USA**

*CB Channel 1 for Northeast USA. Use this channel if you are in the NY, NJ, CT, MA, RI, ME, NH, VT, PA area.*

### **CB Radio [Ch2] Eastern Seaboard USA**

*CB radio for Eastern Seaboard USA. Use this channel if you are in anyone of the states like NJ, DE, MD, VA, DC, WV, NC, SC, GA, FL along the I-95 corridor.*

### **CB Radio [Ch3] Southern States USA**

*CB Radio for the Southern States of USA. Use this channel if you are in any of the Southern states below the Mason Dixon line. Like MS, AL, LA, OK, TN, AR, FL, GA, NC, SC, etc.*

### **CB Radio [Ch4] Mid-West USA**

*CB Radio for Mid-Western states USA. Use this channel if you are in the mid western states like OH, ID, KY, MO, KS, IA, ND, SD, MN, WS, MI, NB, IL, WY, and MT.*

### **CB Radio [Ch5] Southwest USA**

*CB Radio for South-Western states USA. Like TX, OK, AZ, CO, UT, and NM.*

## **CB Radio [Ch6] Western USA**

*CB Radio for Western States USA. States like NV, ID, CA, OR, WA, AK, and HW.*

---

You could search for these channels in the ZELLO search engine or just type them in by hand. Copy & pasting (Highlight, CTRL-C, and then CTRL-V for PC's only) from here to ZELLO works too. Once you set these ZELLO channels up, you will need a password to use them. We password protected them to keep trolls, spammers, and creeps out.

The password is: ***cbradio***

Once you get to the calling channel [99] you could open up by saying:  
*"This is [CB handle] on Route [wherever] in [city and state] and [direction of travel]"*.

*Example: "This is GraveDigger-181 on I-95 south bound out of Baltimore MD. Who we got out there?"*

While there on the calling channel 99, you may want to change to a different channel to cut down on the overloading of the calling channel 99. Try channel CH1 through CH6 that is in the region of USA where you are. You may even run into a local person geographically close to you.

---

You can use PTT (push to talk) or VOX (voice operation) in ZELLO - just like old CB RADIO. There is no full duplex. *It is all SIMPLEX.*

---

ZELLO will work NATIONWIDE USA and in Canada and Mexico (**actually worldwide**). If you want one of those fancy retro Smart-Phone CB hand-mikes

[click here](http://zello.com/accessories.htm) (<http://zello.com/accessories.htm>)

or cheaper version [click here](#)

(<http://www.thinkgeek.com/product/edd5/>).

*You can also use a Bluetooth PTT keyer and use the smartphone's built-in microphone and speaker. They are cheaper and available above or at your local department store used for triggering your Smartphone's camera shutter release. You can mount them on your steering wheel or anywhere you want.*

---

**WARNING: Do not depend on this ZELLO system to help you get assistance for any emergencies. This is NOT a CB Radio like on old CB-Channel-9 is. You're on your own here. If you need help call 911 now on your Smartphone.**

**ZELLO IS TOTALLY FREE!**

=====

**PLEASE PRINT THIS OFF AND POST THIS AT TRUCK STOPS, YOUR DISPATCH OFFICE, ON YOUR TRUCK, HAND OUT TO OTHER DRIVERS, ETC. THIS SYSTEM IS BETTER THAN NOISY OLD CB RADIO WHERE YOU CAN'T GET YOUR SIGNAL OUT FAR ENOUGH.**

**YOU CAN FIND FRIENDS ON CH99 AND HELP THOSE LONG TRIPS GO BY FASTER. YOU CAN EVEN LET YOUR FRIENDS AND FAMILY GET ON TOO TO TALK TO YOU ON THOSE LONG TRIPS!**

**MAKE SURE YOU USE YOUR SMARTPHONE HANDS-FREE IN A CELL PHONE MOUNT ON DASH. YOU DON'T WANT TO GET INTO AN ACCIDENT LIKE TEXTING & DRIVING OR GET PULLED OVER BY 'SMOKEY'.**

**ZELLO WILL WORK IN THE BACKGROUND 7 x 24 AND WON'T IMPACT INCOMING OR OUTGOING PHONE CALLS. YOU CAN HEAR ZELLO CALLS EVEN WHEN SCREEN SAVER COMES UP OR LISTENING TO YOUR FAVORITE MUSIC PLAYER STATION.**

**GET THE WORD OUT THAT CHANNEL 99 IS ON THE AIR...**

**Put this QR Code in your truck cab's window and people will be automatically brought here when they scan it with their  
SmartPhone [QR Code reader app](http://www.i-nigma.com/Downloadi-nigmaReader.html)  
(<http://www.i-nigma.com/Downloadi-nigmaReader.html>).**
